## Local News.

SHERIFF'S SALE.  
I will, on Tuesday, September 13, 1904, at Knifley, Ky., sell at public auction, on a credit of three months, a stock of general merchandise, a bay horse, 7 years old, one buggy, or enough thereof to satisfy execution No. 4,615, which issued from the Adair Quarterly Court in favor of Carter Dry Goods Co. against N. E. Tucker. Also enough thereof to satisfy execution No. 4,616, which issued in favor of S. K. Humphrey & Co. against N. E. Tucker. Said sale will begin at 10 a. m.

F. W. MILLER, S. A. C.  
GARNETT & GARNETT, Attys.  
Aug. 29, 1904.

Another of those enjoyable Ice Cream suppers and afternoon picnics to be given by the young ladies of St. Bernard's congregation on September 10. All come and enjoy a few hours of genuine pleasure. May Clemets, Mgr.

The residence of Jesse English was burned at Desermer, Ala., a few days ago. His oldest daughter, Miss Lee, was consumed in the flames. Mr. English formerly lived in this county.

For sale—15 fat steers, 2 and 3 years old. They are ready for the butcher. Also 2 extra good milch cows.

B. F. Tupman,  
Edith, Ky.

Mr. Creed Beard, Casey Creek, sold his crop of corn at \$1.50 per barrel and will leave in a few days for Shelby City where he will engage in the hotel business.

The leg of Mr. Will Ross, who accidentally shot himself two weeks ago, was amputated by physicians of Columbia last Sunday. At this writing we understand that there are some unfavorable indications.

Mr. B. F. Tupman, of the Green river section, stated to a News man Monday, that he had lived on Green river for 41 years and that this year's corn crop is the best of all. His opinion that the prevailing price for new corn will be \$1.50.

Monday was county court day and few people in town than usual for a September court, so long known as the day to sell suckling mules. There were quite a good number of mules offered but as we could hear not a one was sold. The prices asked ranged from \$35 to \$80 which seemed a little too high for the average fellow to risk. Trade in other lines was rather dull.

Mr. Jeff Epperson, Montpelier, was in to see us Monday and while his subscription was fully paid till next November yet he dropped in a dollar to cover an additional year. Mr. Epperson told us that he was married the 22d day of December 1842 when the snow was 4 inches deep and the weather breezy. Mr. Epperson is 81 years old and his wife nearly 79. Both are in fairly good health and Mrs. Epperson milks two cows and does all her house work. Mr. Epperson is one of the few among the living who saw the great meteoric shower in 1833 and his recollection of that phenomena is still clear and fresh. He stated that the first locust year he ever saw was in 1838 and then 1855, 1872, 1889, all proved true to the old adage every 17 years is locust year. The next year for locust is 1906.

The M. and F. High School opened Monday with flattering prospects. About thirty pupils were enrolled.

IMPORTANT TO VOTERS  
One of the laws adopted by the last Legislature requires all voters residing in towns of the fifth and six classes to register prior to the election or be disfranchised. This applies to Columbia and any other incorporated town in Adair county.

In addition to the registration law requires that a certificate be given each voter at the time he registers, which is the first Tuesday in October preceding the November election. Without that certificate it will be impossible to vote, notwithstanding a citizen's name may appear in proper form on the registration book. If certificate is lost or destroyed the citizen can procure a new one by making an affidavit and paying the County Clerk 50 cents therefor. Voters will do well to bear these facts in mind as hundreds will doubtless be cut out of their votes through ignorance of this new law.

It is the duty of the county clerk as we understand, to procure the necessary registration blanks, and as Tom Stults is always ready for duty, voters can rest assured that they will be accommodated.

## THE RACE ISSUE.

The late President McKinley recognized that the relations between the whites and the blacks in the South was not a matter for governmental interference, nor could the North or the west settle it; but that it was a problem that the Southern people themselves were best equipped from knowledge and experience to deal with. President Roosevelt has taken just the opposite view. He has endeavored by his example and by his meddling to try

and force social equality between the races in the South. In this particular he is nothing but a "meddlesome Mat" and a mischief maker. The white people of the south understand the black people and they are the only people who do understand them. The black people of the south attest their fondness for the white southern people by living among them, when they have the privilege of going to states where their social status is different and where they would be associated with the dominant political party. The intelligent colored people resent Roosevelt's exhortations along racial lines as much as the white people do them selves. They know that there can be no social equality no matter what kind of example the President sets nor are they seeking it. They are perfectly satisfied to have their own churches and their own schools. They realize that the efforts of the President to stir up race feeling will necessarily be more harmful than helpful to them. They realize that men like Booker Washington aided and assisted by the white people of the south offer the only real opportunities for the development and advancement of the race and deplore the blatant talk of a few extremists of their race who for political effect are breeding trouble for both races in the South.

The hurt that Roosevelt is doing by his acts and words are not with the intelligent negroes but the ignorant and the vicious. The injury that is being done is incalculable to the whole race and to the white people of the south as well.

The race question ought not to be dragged into the realm of politics, it cannot be settled there. Social lines cannot be controlled by President Roosevelt or by legislation. Every man has a right to determine who shall be his associates and who shall sit at his board and that right cannot be taken away from him or abridged.

The white people of the south have cheerfully paid taxes that the negro children may have equal school privileges. If education will advance the race they will secure it without the interference of the President or by Congress. Booker Washington's ideas of industrial training and fitting the young of his race with trades and skill for different vocations of life has been fostered and encouraged by the south itself. With their churches and their schools and colleges, with the ability to read and with the example of the white people continually before them, the black man in the United States has all the advantages that can be given him and enjoys advantages such as he has no where else in the world. If under these conditions he fails to become what he thinks he ought to be, it is his own fault.

What the race needs now above everything else is to be let alone; the policy of President McKinley and not the policy of President Roosevelt. The intelligent and educated ones of the race understand this and it would be the part of wisdom and good sense on their part if they would impress this fact upon the ignorant and vicious, in order to avoid a racial conflict which would be more detrimental to them than the whites—Elizabethtown News.

PERTINENT THOUGHTS.  
Greed is the foe of gain.  
Liberty falls where the law fails.  
Love alone can interpret the law.  
Light heart seldom goes with a light head.

Moral masks deceive no one but their wearers.  
Vice is never so dangerous as when it wears wings.  
You cannot purify the water by painting the pump.  
Faith has the way of looking right over the top of facts.  
When a man tries to hide his religion he is sure to lose it.  
You will not lose any true friends by loving your enemies.  
Take your religion as a does and it will soon make you sick.  
Religion gets its rating in this world on the basis of its reality.

The men who make a noise in this world are always the quiet ones.  
The specifications for the gates of heaven are not drawn up on earth.  
The oil of kindness is enhanced by being carried in the can of courtesy.  
A man's place in heaven may be quite different from his place down here.

Try to make two virtues look like ten, and they will get so thin you won't know them.

The sharper a man is the more likely he is to stick into something and get broken off short.

## IN MEMORY OF ELLA REYNOLDS.

Written for the News.

Dearest Ella, thou hast left us,  
Here thy loss we deeply feel;  
But 'tis God who hath bereft us,  
He can all our sorrows heal.  
Her ever kind and happy voice  
Is heard on earth no more,  
But while we grieve we hear the words,  
"Not lost, but gone before."  
In seems very strange to us sometimes  
And we do not understand  
Why oft the sweetest flower is plucked  
From the most tender, loving hands.  
Broken hearted, sorrowing parents,  
We can not take away your grief,  
Place your trust in loving Jesus,  
You will surely find relief.  
Think of Ella, free from pain,  
From every toil and care;  
Then do not grieve because she's gone,  
But meet her over there.  
Live so you will meet her by and by  
Upon the golden shore,  
And there live together  
Where parting will be no more.  
Lonely sisters and brother,  
Hear God's promise, pure and blest,  
"Come ye weary, heavy laden  
I will surely give you rest."  
You miss her gentle presence,  
Your heart is bleeding and sore,  
You loved her, oh, so dearly,  
But angels loved her more.  
Let us ever strive to meet her,  
When the spark of life has fled  
Where there's joy, peace and gladness  
And no farewell tears are shed.  
SALLIE.

## MINERAL WATER.

It Has Been Recently Found on the Farm of J. C. Morrison, Taylor County.

This well is on the Campbellville and Greensburg pike, five miles from the former place and seven from the latter. The well is 88 feet deep and the water is as cold as a person would want it. It is situated on Mr. J. C. Morrison's place, who is making preparations to take a few boarders.

The following gives a full explanation:  
Agricultural Experiment Station, State College of Kentucky,  
Lexington, Ky., July 30,  
14,554.—Mineral water sent by J. C. Morrison, Campbellville, Taylor county, Ky., July 18, 1904. The sample was received July 21, 1904, in pint bottle. The water smelled strongly of hydrogen sulphide and there was a deposit of sulphur in the bottle.

ANALYSIS.  
The water contains 329.9 grains of solid matter to the gallon, composed mainly of chlorides and sulphates of sodium, calcium and magnesium, some calcium carbonate and traces of iron, potassium and lithium compounds and a trace of borates. The water contained also a very considerable quantity of hydrogen sulphide. Is very good saline sulphur water.
